

WOOD DENOUNCES BUTLER CHARGES

Denies Campaign Backed by "Motley Group of Stock Gamblers."

CHICAGO, June 16.—(Spl.)—Gen. Wood, in a signed statement last night characterized as "a vicious and malicious falsehood," a declaration by Nicholas Murray Butler that a "motley group of stock gamblers, all and sundry promoters, munition makers and other like persons" backed the general's campaign for the Republican presidential nomination.

Gen. Wood said he regretted to make the statement, but that it was necessary to "brand a fakir and to denounce a lie." Declaring that the men who managed his campaign were "of extraordinary high character," the general said that the attack upon them "is infamous" and that Mr. Butler's action was "an attempt to ingratiate himself with certain elements which exercised a determining influence at the convention."

The statement follows: "I have just read the statement issued in New York by Nicholas Murray Butler to the effect that a motley group of stock gamblers and others tried to buy the presidential nomination for me, and that the forces who were defeated in their insidious attempt to buy the nomination represent all that is worst in American business and political life. The statement is a vicious and malicious falsehood. I would ignore it if it were directed at me alone, but I cannot remain silent when my loyal friends and supporters are vilified."

"Col. William Cooper Proctor, who was chairman of my campaign committee, is a man of extraordinary length and breadth of the land for his absolute integrity and honesty. His associates were men of like character, most of whom responded to their country's call during the war. They typify a group of progressive Americans. The attack upon them is infamous. The forces which brought me before the convention with preponderant forces were hundreds of thousands of patriotic men and women in every walk of life who have endorsed me at nation-wide state conventions, national-wide state primaries and in a nation-wide poll of unprecedented size.

"This action of Nicholas Murray Butler is an attempt to ingratiate himself with certain elements which exercised a determining influence at the convention and possibly to explain his own political weakness. It is a self-seeking cowardly attack, made under the cloak of an alleged public service, which was never intended or rendered."

"I regret to make a statement of this kind, but it is necessary in this instance to brand a fakir and to denounce a lie."

The first of these prohibits the carrying of merchandise in other than American ships between American ports via a foreign port. This would stop the carriage of freight between points in the United States and Alaska over the Canadian railroad lines or in Canadian ships.

The other section directs the president to terminate, as soon as that can be done under their terms, all treaties which restrict the right of the United States to impose discriminatory duties upon foreign shipping entering American ports.

Testifying before the senate committee investigating re-convention campaign expenditures recently Goldstein admitted the receipt of the money and said he intended to return it in the event Gov. Lowden failed to get the nomination.

Goldstein said he gave the \$2,500 to a man "close" to L. L. Emerson, the Lowden campaign manager, before leaving Chicago for St. Louis Friday night. He would not, however, identify the recipient of the money.

Why Trifle With Green, Unripe Drinks? Drink Schlitz—It Is Aged

YOU would not eat green fruit—fruit which is unripe. Yet unless you exercise care you will drink an unripe beverage—and suffer consequences.

There is a tendency today to cheapen and hasten beverages to meet a quantity demand.

Schlitz is not rushed. It is a scientific product—not a trifling concoction of the moment.

The years of experience and the hundreds of thousands of dollars worth of equipment that made Schlitz famous is making the Schlitz of today.

Schlitz is thoroughly aged—fully ripe. Then it is cooled in plate glass rooms, in filtered air.

The final step, after bottling and sealing, is sterilization by Pasteur's process—through which it is impossible for any germ to exist.

When we say Schlitz is pure we mean also that it contains no living organisms—no bacilli—nothing to cause fermentation in your stomach.

Drink Schlitz today. The Brown Bottle protects it.
